

# POB G6 Administrator New Training

November 2020

Back by popular demand. Introducing remote training for Point Of Business customers, re-designed for a virtual setting. We are offering two weeks of training, with three hours per day of instruction and then assigned labs over the course of ten business days.

"Wendia North America's Administrative Training Course is structured, informative, and well-planned. The itinerary makes sense and the expectations that are set on day one."

The trainers are outstanding at understanding your specific needs and problems, and providing unique solutions to them. They are prepared to help your visions become a reality and could do so for any small, medium, or corporate business. Their hands-on training is delivered remotely but still world class.

We encourage group sessions as it allows you to share best practices and network with other system administrators.

*Our virtual session is limited to ten class participants. Sign up soon to get your seat reserved. Two week training is only \$1,800 per person.*

## Please join us for our POB G6 training in North America

Get your POB Administrator up to speed on utilizing the new G6 release.

Cost per seat for this hands-on training only \$1,800.

Participation is limited, so register today to secure your place!

Training via GoToMeeting with the Pleasant Grove, Utah Team.

**RSVP—Register by Friday, October 23 2020**
